

Full licenses

A full license allows you to install NVivo on a maximum of two devices and use it indefinitely. Each full license provides a single license key for each individual user.

Full licenses can be purchased as either single licenses or multiple licenses. Discounts apply for purchases of three or more licenses.

Student licenses

Full time students can purchase twelve-month time-limited licenses to use NVivo Pro for educational purposes.

NVivo editions

There are two editions of NVivo 12 (Windows) client software: Pro and Plus. Each edition features a different level of functionality to support a range of projects and research needs.

The client license key determines the edition—some licenses allow access to more than one edition. Users with access to multiple editions can switch between them in Application Options.

What is NVivo Extended Support?

NVivo Extended Support ensures that you get more personal, more convenient Support.

By securing Extended Support with your NVivo Subscription you can:

- Access our expert Support team outside our standard support hours.
- Talk with our team of Support staff on the phone (in addition to email).
- Ask an unlimited number of questions and get priority responses.

NVivo Extended Support is only available at the time you purchase your NVivo full license, or upgrade to our latest software. All services are provided by the developer in AU.
